

UND Student Health Service Requirements

Polio
 Yellow Fever
 Chicken Pox (Varicella)
 Rabies
 Typhoid
 Meningitis (MCV₄)*
 Japanese Encephalitis

All vaccinations are done by appointment at Student Health Services.

Required Immunizations

The North Dakota University System policy requires all students to be vaccinated with 2 doses of measles, mumps, and rubella. All newly admitted students ages 21 and younger must provide documentation of a meningitis vaccination given after the 16th birthday. Students are also required to complete the TB (Tuberculosis) Screening Form.

Documentation must be provided by August 1st for Fall Semester, January 1st for Spring Semester, and May 1st for Summer Semester. Failure to comply with the immunization requirements will result in a hold on your account restricting you from registering for the following semester.

Immunization documentation may be submitted via the following options:

Mandatory Immunization and TB screening Forms/Instructions (http://und.edu/health-wellness/student-health/_files/docs/instructions-immunizations-tbform.pdf). This form may be printed off, filled out and returned with the appropriate immunization documentation to Student Health Services, 100 McCannel Hall, Stop 9038, Grand Forks, ND 58202 or faxed to 701-777-4835.

OR:

If you have claimed your UND account, you may access our patient portal at myhealth.und.edu (<https://myhealth.und.edu/>) to enter your immunizations and upload immunization information electronically. (Use your UND user name and password to log in)

If you have questions, contact UND Student Health Services at 701.777.4500 or 1.800.CALL.UND, ext. 4500.

Exemptions

- Students who are taking courses off campus, such as on-line, correspondence, etc.
- Immunization contraindicated by medical condition
- Student has had one immunization and agrees to have second immunization within one month
- A student's beliefs preclude participation in an immunization program

If you have medical or religious reasons for not receiving the required immunizations, please complete the Medical/Conscientious Exemption section of the Mandatory Immunization and TB Screening Form. A physician's signature is required for a Medical Exemption. PLEASE NOTE: By requesting the exemption to immunization, the student may be excluded from all campus activities, including classes, in the event that the North Dakota Department of Health declares the existence of a measles, mumps, rubella or meningitis outbreak at the University. This exclusion shall remain in effect for such time as determined by the North Dakota Department of Health.

Vaccines

In addition to MMR, there is a comprehensive menu of vaccines available at Student Health Services, almost always at a reduced fee. While some vaccines are part of the basic protocol for general health, others are more specific for other purposes, such as world travel.

The following vaccines are available:

Influenza (flu) shots
 Gardasil (HPV₄)
 Hepatitis A
 Hepatitis B
 Twinrix (combination of Hepatitis A and B)
 Tetanus/diphtheria (Td)
 Tdap (Tetanus, diphtheria and pertussis)
 Pneumovax (PPV₂₃)
 Mantoux (Tuberculosis test)
