Please note: Graduation with a Bachelor of Accountancy degree with 120 credits does NOT necessarily satisfy all eligibility requirements for taking the CPA exam and/or becoming licensed as a CPA. Specific requirements for sitting for the CPA exam and licensure vary across states/jurisdictions and are subject to change. Licensure typically includes requirements beyond education such as professional work experience. Thus, students interested in pursuing the CPA certification should check requirements in the jurisdictions in which they plan to sit for the exam and/or become licensed, and choose electives and degree options accordingly. Students interested in pursuing the CPA certification are encouraged to pursue the ABM (Accelerated Bachelor/Master of Accountancy) program.
